

INTELLIGENT FAITH CONFERENCE

Saturday, November 11
9 A.M. – 3:30 P.M.

SPEAKER TOPICS (KEYNOTE & BREAKOUT SESSIONS)

Eric Hovind (Keynote Speaker)

(1) (A.M.) "THE CASE FOR CREATION"

If the Creation Worldview were truly scientific, then it should have some predictive capabilities. So what should we expect to see in the world if God really created it out of nothing just 6,000 years ago? You will be amazed and entertained as the science of Creation comes to life before your eyes!

(2) (P.M.) "THE MIND OF THE SKEPTIC"

With atheism on the rise, how do Christians answer the skeptics questions about God? In this session, we will give you the 4 critical questions to ask any skeptic and reveal the proofs needed to get the skeptic to worship the God of the Bible!

Tim Chaffey (Keynote Speaker)

(1) (A.M.) "THE RESURRECTION OF JESUS CHRIST"

For 2000 years, critics and skeptics have attempted to explain away the abundant evidence for the most important event in history: the Crucifixion and Resurrection of Jesus Christ. This talk highlights the many evidences for the Resurrection and then offers a critique of the numerous alternative theories that have been developed to deny the Resurrection. Christians can rest assured that the foundation of their faith is rock solid.

(2) (P.M.) "THE HISTORICITY OF JESUS CHRIST"

Skeptics have longed challenged the miracle accounts in Scripture, but in recent years they have made even more audacious claims, including the notion that Jesus never even existed. This presentation dismantles the Christ Myth theory and many other false teachings about Jesus that have been spread by novelists and atheist bloggers.

Helmut Welke

“SCIENCE AND THE AGE OF THE EARTH”

Helmut will review several scientific evidences that are strong indicators for the age of the earth and also the solar system. Much of this information is based on recent scientific discoveries and may surprise you.

Dave D’Armond

“AMAZING COMPLEXITY & DESIGN IN LIFE”

Incredible rotary motors in living things, clearly show the Master Designer at work. (One rotary motor is only as big as a single molecule! And yet, all life depends upon this wondrous molecule.) See God’s designs in bats, woodpeckers, whales, etc., and some incredible mysteries about DNA - your genetic blueprint.

Randy Hroziencik

“SHARING THE FAITH WITH SEEKERS & SKEPTICS”

See how the Apostle Paul shared the message of the Gospel with the Epicurean and Stoic philosophers in Athens and learn how to share the gospel with seekers and skeptics. We will discuss how Paul’s approach of beginning with creation and working toward redemption in Christ is still the most effective way to reach out to those who are unfamiliar with, or confused by the Christian message.

Darrell Pack

“THE QURAN: DIVINE INSPIRATION OR HUMAN INVENTION”

Rational evidence that rebuts the Islamic claim that the Quran came from God. This is the ideal session for anyone who has Muslim friends or family as well as parents of kids in University that want to help their children understand why Christians do not accept the Quran as having come by divine inspiration.

Justin Hohenadel

“DINOSAURS: WHY SHOULD WE CARE?”

This session will explain why dinosaurs are so important to the Christian worldview and how they fit with evidence for a young Earth, a global flood and the understanding that man and these beasts once roamed the Earth together. This session will also help to dispel some of the lies concerning macro-evolution.

Rick McGough

“THE CASE FOR THE BIBLE”

How can we know that the Bible is the Word of God? This session will deal with 8 areas of evidence that confirm the Bible is the Word of God. (Internal Unity, Archaeology, Medical & Scientific Facts, Fulfilled Prophecy, Changed Lives and more) Become better equipped to share why you believe the Bible is the Inspired Word of God.
